List of Publications

W. Maass, G. Schnitger, and E.D. Sontag. On the computational power of sigmoid versus Boolean
threshold circuits (extended abstract). In *Proceedings of the 32nd annual symposium on Foundations
Press.

E.D. Sontag. Capabilities and training of feedforward nets. In *Neural networks (New Brunswick,

of the 1990 conference on Advances in neural information processing systems 3*, pages 939–945,

F. Albertini and E.D. Sontag. Some connections between chaotic dynamical systems and control

Y. Lin and E.D. Sontag. Further universal formulas for Lyapunov approaches to nonlinear stabil-

R. Schwarzschild and E.D. Sontag. Quantized systems, saturated measurements, and sign-linear

F. Albertini and E.D. Sontag. Accessibility of discrete-time nonlinear systems, and some relations

F. Albertini and E.D. Sontag. Transitivity and forward accessibility of discrete-time nonlinear
systems. In *Analysis of controlled dynamical systems (Lyon, 1990)*, volume 8 of *Progr. Systems

E.D. Sontag. Input/output and state-space stability. In *New trends in systems theory (Genoa,

E.D. Sontag and Y. Wang. Pole shifting for families of linear systems depending on at most three

points by parallel lines. In *Proceedings of the Second Canadian Conf. on Computational Geometry,

E.D. Sontag. Constant McMillan degree and the continuous stabilization of families of transfer
matrices. In *Control of uncertain systems (Bremen, 1989)*, volume 6 of *Progr. Systems Control
